TECHNICAL SKILLS

Languages: Python, TypeScript, SQL, HTML/CSS

Frameworks & Libraries: Next.js, Vite, React, FastAPI, Capacitor, Leaflet, DistilBERT, spaCy, VADER, Celery

Tools & Platforms: Node.js, Docker, Playwright, Redis, Supabase, Firebase, PostgreSQL, Git

PROJECTS

News Sentiment Analysis (Capstone / Thesis) | *Python, Redis, Celery, PostgreSQL, Docker* 2026

- Designed a near real-time platform that collected and analyzed news from 8 major Philippine media outlets.
- Engineered an automated data pipeline that processed over 400 news articles daily.
- Built a dataset of over 35,000 Philippine news articles to support large-scale sentiment analysis.
- Integrated DistilBERT and VADER for sentiment analysis and spaCy for named entity recognition.

Facebook Marketplace Scraper | *JavaScript, Playwright, GraphQL, Supabase, Next.js* 2026 – Present

- Designed a dual-account automated scraping architecture to improve reliability and minimize detection risk.
- Developed SQL queries to retrieve, filter, and analyze listing data stored in Database.
- Implemented rule-based NLP for attribute extraction and anomaly detection, including Face ID/True Tone.
- Collected 1,000 iPhone listings while identifying approximately 40 new listings daily.

Real-Time Field Personnel Tracking System | *Vite, React, Capacitor, Leaflet, Firebase* 2025

- Designed and developed a prototype real-time personnel tracking system for police field operations.
- Built a centralized dashboard to visualize live personnel locations and improve deployment monitoring.
- Investigated browser and mobile platform limitations affecting background location tracking.
- Documented technical constraints and proposed solutions for future native implementation.

EXPERIENCE

IT Support Intern August 2025 – December 2025

Guimaras Provincial Police Office

Guimaras, Philippines

- Assisted with technical and administrative operations while supporting day-to-day IT needs
- Provided technical support by troubleshooting hardware, software, and network issues for office staff
- Identified workflow limitations in field personnel monitoring and developed a prototype tracking system

Customer Service Representative June 2025 – August 2025

Inspiro Relia, Inc.

Iloilo, Philippines

- Investigated potential fraudulent accounts using identity verification, account history, and behavioral analysis
- Resolved customer inquiries via verbal and written channels while consistently meeting SLA targets
- Documented case findings and resolutions in CRM systems while maintaining quality assurance

Layout Specialist December 2021 – May 2022

Transfer It

Manila, Philippines

- Produced print-ready designs in Adobe Photoshop while ensuring layout, color, and print accuracy

EDUCATION

Guimaras State University

Jordan, Guimaras

Bachelor of Science in Computer Science

2022 – 2026

ACHIEVEMENTS

- Best Paper Award (NLP Track)** — Ubiquity 2026: 2nd CST Student Research Colloquium
- Best Presenter** — Ubiquity 2026: 2nd CST Student Research Colloquium
